

GRASS SEED GUIDE

Give Your Cows What They Like To Eat

Giving your cows the grass they prefer not only reduces waste, but saves money and increases yields.

Kingshay seed mixtures are 'Tried and Tested' by dairy cows, within trials that evaluate the 'performance', 'persistency' and 'palatability' of grass varieties within individual plots, under practical farm conditions.

"It's robust, long-lasting & the cows love it. We have tried other seed at similar prices but they just don't compare!"

*Robert & Lucy Noad
Trowbridge*

"Since switching to Kingshay Grass Seed, every paddock is a preferred paddock and the cow's heads go straight down to graze!"

*David Helliar
Wiltshire*

Productive & High Quality Silage Leys

Utilising data from our own and recommended list trials, we select only the best available varieties to give you options for short, medium and long term silage mixes. Red clover mixes are also available, providing higher protein silages, with less nitrogen inputs.

Unlike many suppliers we are not aligned to a specific grass seed breeding company, allowing us to select the best varieties to help improve your output from forage.

Organic Mixtures

Specific organic mixtures are also available.

Soil Analysis

Ensure your soils are in peak condition through regular analysis. Contact us for details of both standard and comprehensive soil analysis packs.

To help you choose the most suitable Kingshay grass seed mixture, see overleaf for a handy guide.

All seeds mixtures are competitively priced and Kingshay Members benefit from a further discount.

Contact us to discuss your requirements.

WHICH GRASS SEED MIX?

Use this handy guide to help you choose the right mixture for your fields.

Is your farm...

Organic

Conventional

Organic Mixes

- ORC Organic RC + Hybrid
- OGLC Organic Preferred Grazing
- OSLC Organic Preferred Silage

Call us on **01458 851555** for further advice or to place an order

Oversow

Oversow Mixes

- OSC With Clover
- OS Without Clover

www.kingshay.com

Do you want to *oversow* or *reseed*?

Reseed

Short Term Mixes

With Clover

- RC 2 year ley, for intensive cutting, with red clover
- RW 3 year ley with red and white clover

Without Clover

- S1 1 year IRG Ley, Catch Crop or after Maize
- S2 1-2 year IRG + Hybrid Ley
- S3 2-3 year Ley, Hybrid + PRG
- S4N 3-4 year Ley, Hybrid + PRG

What time span does the crop need to be in?

Short Term (1-4 years)

Long term (5 years plus)

Long Term Mixes for Cutting Only

- SLC Preferred silage mix with clover
- SLN Preferred silage mix without clover

Are you planning this crop to be *grazed* or *cut for silage*?

Cutting for Silage Only

Predominately Grazing

Cut & Grazing

Long Term Mixes for Dairy Grazing

- GLC Preferred grazing with clover
- GLN Preferred grazing without clover

Long Term Grazing & Silage Mixes

- SLC Preferred silage mix with clover
- SLN Preferred silage mix without Clover
